

October 24, 2024

Elegen Corporation attests that the company adheres to all requirements in the U.S. Office of Science and Technology Policy (OSTP) [Framework for Nucleic Acid Synthesis Screening](#). Elegen implements the following biosecurity and information security practices, as specified by the framework:

- We screen each ordered sequence of synthetic nucleic acids to identify sequences of concern (SOCs)
- We screen each customer submitting a purchase order of synthetic nucleic acids with SOC to verify legitimacy
- We report potentially illegitimate purchase orders of synthetic nucleic acids containing SOC to the relevant authorities
- We retain records relating to the purchase of synthetic nucleic acids
- We take steps to ensure cybersecurity and information security.

Signed,

Matthew Hill, PhD
CEO and Founder
Elegen Bio
