

# ENFINIA Linear DNA High Yield Synthesis Options

ENFINIA DNA can now be synthesized to yield 5x or 20x more DNA than our 1 - 3 µg standard.

<b>Standard Yield</b> <b>1 - 3 µg</b> Included	<b>5x Yield</b> <b>5 - 15 µg</b> +\$150 per sequence	<b>20x Yield</b> <b>20 - 60 µg</b> +\$250 per sequence
--	--	--

The higher yields are produced using Elegen's innovative cell-free linear DNA synthesis process to deliver unprecedented accuracy (1:70,000 per base error rate) and length in just 6 to 8 business days. Each sequence synthesized is NGS-verified before shipment.

## HOW TO ORDER

1. Log into Elegen's ordering portal at [ecommerce.elegen.com](https://ecommerce.elegen.com) and create a new order.
2. At the Create Order step, upload one or more sequences that you would like to order at a higher yield.
3. Select the desired synthesis yield for each sequence:

Sequence	Yield	BP
GCGAGTCTTAGCCTGCG ... <a href="#">Show More</a>	Standard yield (1 - 3µg) ▾	598
GCGAGTCTTAGCCTGCG ... <a href="#">Show More</a>	Standard yield (1 - 3µg) ▾ 5x yield (5 - 15 µg)(+ \$150)	598
GCGAGTCTTAGCCTGCG ... <a href="#">Show More</a>	20x yield (20 - 60µg)(+ \$250)	598
GCGAGTCTTAGCCTGCG ... <a href="#">Show More</a>	Standard yield (1 - 3µg) ▾	732
GCGAGTCTTAGCCTGCG ... <a href="#">Show More</a>	Standard yield (1 - 3µg) ▾	732
